Planned Venting at Loudoun Compressor Station

Sent: April 6, 2021

Good afternoon,

I wanted to make you aware of a notification my office received from Berkshire Hathaway regarding a **planned "venting" of the Loudoun Compressor Station (located along Watson Road) on Tuesday, April 13th at 0800 hours.**

Below is the message we received regarding the scheduled venting operation:

This is a message to our neighbors in the vicinity of Berkshire Hathaway Energy Gas Transmission and Storage (BHE GT&S) Loudoun Compressor Station on Cove Point Lane off of Watson Road in Loudoun County:

On Tuesday, April 13, 2021 we will be performing an emergency shutdown device test, which will require venting to release a small amount of natural gas from piping within the station lot. The gas will be vented at a slow rate with minimal noise to minimize your inconvenience. Venting will begin at approximately 8:00 a.m. and is expected to last less than 60 minutes.

Thank you for your understanding as we work to ensure the safe and efficient operation of our facilities.

Please feel free to contact us with any questions through this e-mail address, LDNCCompressorstations@dominionenergy.com for additional information.

BHE GT&S

Berkshire Hathaway Energy Company recently purchased certain gas transmission and storage companies from Dominion Energy, Inc. This new BHE GT&S unit is now a standalone subsidiary of Berkshire Hathaway Energy Company's Pipeline Group. Please note that during a transition period, employees of the BHE GT&S unit will continue to utilize a Dominion Energy email address; however, BHE GT&S is not affiliated with Dominion Energy in any way. Any inferences with respect to the BHE GT&S use of a Dominion Energy email address should be disregarded, as the sender is no longer affiliated with Dominion Energy.
