Rt 9 Safety and Operational Study Meeting

Virtual Public Information Meeting
September 22, 2021
6:00 - 7:30 pm

Sent: September 15, 2021

ROUTE 9

Safety and Operational Study West Virginia to Route 7

About the Route 9 Safety and Operational Study

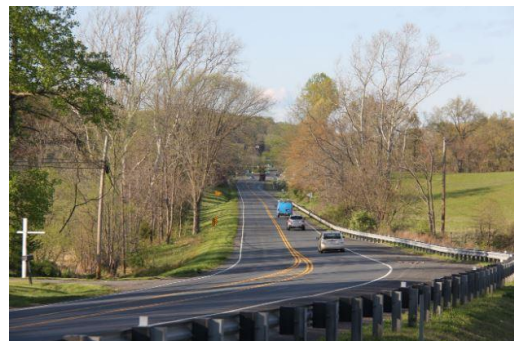

The purpose of this project is to conduct a Safety and Operational Study (SOS) of Route 9 in Virginia, encompassing 13 miles from the West Virginia border to Route 7. The study will identify safety and traffic operational issues and present recommended solutions for consideration by the Board of Supervisors.

Throughout the study, public and focus group meetings will be held to capture local observations, perspectives and concerns along the corridor, to ensure any proposed improvements along Route 9 will continue to carry local and commuter traffic safely and efficiently while preserving the context of the roadway.

Anticipated completion of the study is Spring of 2022.

Virtual Public Information Meeting - September 22 at 6:00 pm

Loudoun County will host a virtual public meeting on Wednesday, September 22, 2021, from 6:00 -

7:30 pm to review alternative corridor concept plans.

The study team has developed these alternative concept plans based on an evaluation of the existing operational conditions along the corridor and analysis of future traffic volumes.

Login information and meeting materials are available for review at loudoun.gov/route9 and loudoun.gov/remoteparticipation. Meeting materials will include speaker sign-up and comment forms. Members of the public must sign up in advance to speak during the event by 12:00 pm, Tuesday, September 21, 2021. Online participants may also send questions to the project team as chat messages, which will be answered during the meeting as time allows.
