## Ryan Road Updates

**Road Widening Progress... AND  
Improved Traffic Signal Synchronization Coming Soon!**

Sent: November 5, 2021

### Ryan Road Widening Continues

Ryan Road between Northstar Drive and Evergreen Mills Road is planned to be improved to a four-lane, median divided roadway with shared use paths on both sides of the roadway.

Ryan Road from Northstar Blvd to Beaverdam Drive is currently being widened by the Brambleton developer as a proffer to Loudoun County. Many thanks to the developer for providing the below linked drone video footage showing their recent progress.

**[VIEW FOOTAGE OF DRONE OVERFLIGHT](#)**

The remaining Ryan Road widening from Beaverdam Drive to Evergreen Mills Road is expected to be completed as a County programmed Capital Improvement Plan (CIP) project. Design work for this project began in July of 2021 and is typically a two-year process including several opportunities for public input. Land acquisition and utility relocations are currently planned to extend through FY2026. My office's efforts to obtain final construction funding and accelerated construction of this project are ongoing and will continue as part of each year's CIP budget discussions and efforts to obtain state and other outside funding sources.

### **Improved Ryan Road Traffic Signal Synchronization**

My office is aware of community concerns regarding excessive rush hour queueing due to improperly synchronized traffic signals. As such, I have asked VDOT to review the situation and work to optimize traffic signal synchronization along Ryan Road in order to reduce traffic congestion and driver frustration, while improving safety.

Ryan Road between Northstar Blvd and Loudoun County Pkwy includes 6 signals. VDOT is currently developing synchronization plans for the AM and PM rush hours. These new synchronization plans are anticipated to be implemented by VDOT later this month (November of 2021).

My office is hopeful that the updated signal timings will deliver improved safety and a higher level of service for area drivers!

All our best!
