IMPORTANT REGIONAL NEWS: US 340 ROCK SLIDE REPAIR PROJECT IN WEST VIRGINIA

**Virtual Public Meeting: Tuesday, November 9
4 PM to 7 PM**

Sent: November 8, 2021

I want to share with you that the West Virginia Division of Highways (WVDOH) will hold a virtual public meeting on **Tuesday, November 9, 2021, from 4:00 to 7:00 p.m.** to provide an update on the proposed rock slide repair project along US 340 and present the findings of the Environmental Assessment (EA). During that time, project team representatives are available to answer questions.

There will be two virtual presentations at 4:30 p.m. and 6:00 p.m. with live chat available.

This project includes the implementation of rockfall protection and stabilization measures associated with the existing slopes along US 340 northbound, between Chestnut Hill Road and Harpers Ferry Road. A handout with project details is available [here](#).

The project work requires complete closure of US 340. Tomorrow's public meeting is your chance to provide feedback on the two traffic control options that are under consideration, which include a 22-mile [detour route](#) that will impact the residents and businesses throughout the Greater Hillsboro area.

The public will be able to ask questions of the project team during the public meeting and also provide written comments after the meeting until Thursday, December 9, 2021.

Visit the project website at www.US340HarpersFerry.com for complete project details.

My office will continue to share updates as we learn more about this important regional project that could impact many western Loudoun residents and businesses.

All our best!
