

Improved Traffic Signal Synchronization Along Ryan Road & Loudoun County Parkway

Sent: December 2, 2021

On November 5, I let you know that based on communications with the Brambleton HOA I was aware of your concerns regarding excessive rush hour queueing along Ryan Road due to improperly synchronized traffic signals and that I had asked VDOT to evaluate and improve the situation.

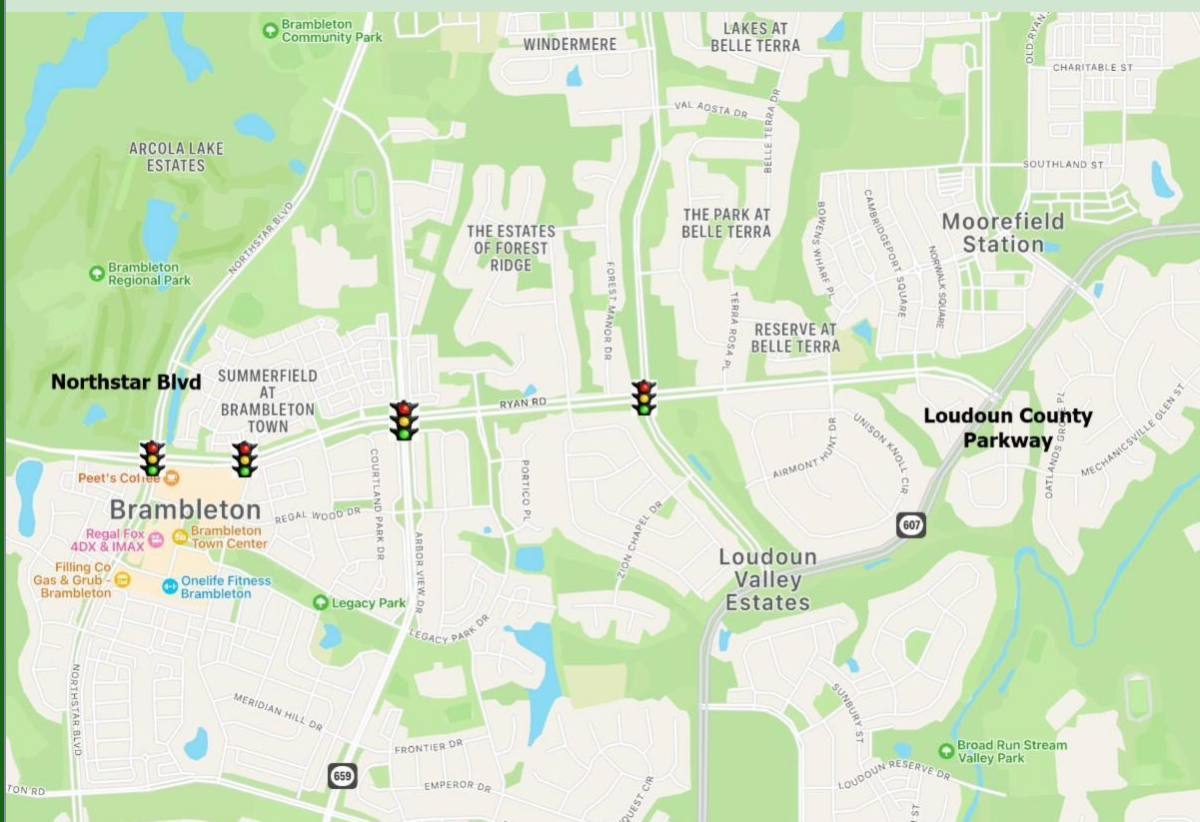

I'm happy to report that on November 18, VDOT implemented improved signal timing plans for morning (6:45-9:30 am) and afternoon (3:30-7:30 pm) peak periods. As shown, signal timings were improved at the following intersections:

- Ryan Road & Northstar Blvd
- Ryan Road & Olympia Drive
- Ryan Road & Belmont Ridge Road
- Ryan Road & Claiborne Parkway

Vehicles traveling along Ryan Road between Evergreen Mills Road and Loudoun County Parkway should now experience less stops during morning and afternoon peak hours.

VDOT also implemented improved signal timing plans for morning and afternoon peak periods along Loudoun County Parkway from Ryan Road to Shellhorn Road.

I hope these updates will deliver improved safety and higher levels of service for you and your family!

All our best!
