

## 4 Free At-Home COVID Test Kits Delivered To Your Home

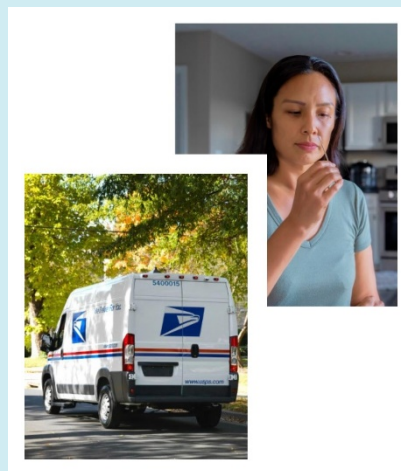

Sent: January 20, 2022

The federal government has launched [COVIDtests.gov](https://www.covidtests.gov) where U.S. household can now order 4 free at-home antigen (not PCR) COVID-19 tests to be delivered. The tests are expected to ship in 7-12 days by the U.S. Postal Service to valid residential addresses.

The tests provide results within 30 minutes (no lab drop-off required) and are effective regardless of whether an individual has COVID-19 symptoms.

If you need a COVID-19 test now, are looking for another type of COVID-19 test, or need more than 4 tests, there are other resources available:

- Check local retailers and pharmacies.

- Obtain [reimbursement](#) through your insurance provider for up to 8 at-home tests per month for each person on your plan.
- Attend a free COVID testing [event](#) hosted by Loudoun County.

Loudoun County shares frequent updates to all COVID-19 information [here](#) and also provides information on county-sponsored testing and vaccination efforts via this easily accessible [webpage](#).
