Final Bridge Side Walls Complete!

Matching Walls with Stone Finish Complete the Project!

Sent: March 10, 2022

Final Product Pictured Below!

Prior to the Work

Phase One Completion

Last year, we completed widening of the one lane bridge along Foggy Bottom Road near its intersection with Snickersville Turnpike. This multi-year effort in collaboration with VDOT and the local community was done with a focus on maintaining the road's rural character while enhancing safety for existing vehicle, bicycle and pedestrian traffic.

Upon completion of phase one, we took action on community requests to enhance the look and character of the bridge's side walls as initial project completion left the bridge with unacceptable looking sidewalks that did not match nor fit the proper look and feel of the area.

In working with VDOT, we were able to ensure community input into design and construction of the newly completed sidewalks which look amazing and properly reflect the areas rural character.

Many thanks the area businesses, organizations and residents who contacted my office and worked with us and VDOT to ensure such a fitting final product! And of course I owe a big THANK YOU to VDOT for being so understanding of our concerns and working hard to address them!

All our best!
