

Just wanted to tell you how much my family appreciates all the help we've received from your officers over the last several years. Deputy Void has been a blessing, managing my dad's Project Lifesaver program. And other officers on the force as well as Leesburg Police have brought my dad home on several occasions, so caring and all with smiles on their faces.

I wanted to congratulate your agency on your excellent LinkedIn page. Whoever is running your agency's page is doing a phenomenal job. My family and I live in York, Pennsylvania and have no connection to Loudoun County. My son, Peter, is a senior in college and is hoping to enter the law enforcement profession. He found your agency on LinkedIn and he and I have been following you for several months now. We are always so impressed with the content you release and can tell how much you care about your employees and citizens. Because of your page, Peter is now planning to apply to your agency in the coming weeks. He can tell you are an excellent agency and he hopes to become a part of it. Keep up the great work!

I'm afraid I didn't catch the deputies names. Two officers came to a pediatric RTC for a TDO. The kid had been destructive and aggressive, potentially causing significant self harm. This compliment is for the grace and consideration the officers showed to the at-risk and lower functioning individual that emphasized the boy's treatment instead of draconian punishment. The younger officer was especially adept, even modifying the restraints so the child could use his grounding device.

It makes a sad moment a little

Deputy turned a traffic stop into an educational experience for my son. Please thank him for me.

Videos and games these days do not explain properly, and in fact completely misrepresent, the role of law enforcement in society. Kids, including my son start to get the wrong ideas, and I sound like a broken record in trying to correct these.

Deputy Hwang was professional in executing procedures and was in addition courteous and informative in his explanations. I think my son is revising his ideas a bit as a result. Deputy Hwang explained the goal of the law as one of safety, and showed he was more interested that we learned a lesson today about the law than that we received a penalty.

I appreciate his approach very much and thank him.

Chris

Back on December 18, 2021, I had the good fortune to go on a ride along with Deputy Michael Davidson (#3442) on his night shift in Ashburn. This came about after having been in the Police Citizens' Academy program.

Well, here he was stuck with some old woman who wanted to drive around with him. Apparently, I was his first ride along. He could not have been more pleasant and professional. The evening turned out to be truly educational and further increased my appreciation for all that you in the Sheriff's office do for those of us under your umbrella of protection.

Deputy Davidson is to be commended for the approach he took to the experience. I could not have been more impressed that a young man of twenty-three was so prepared to take on his duties and share his skillset with another. Thank you.

With gratitude for such a wonderful ride-along experience and the chance to watch Deputy Davidson at work,  
Dana

Deputy Dean was called to my home on a DV situation. He was fair, calm and protective. Deputy Dean returned with info on various county resources for victims and sage advice to me to protect myself from future occurrences. I followed this advice and am now in a safe environment. I would like Deputy Dean to be recognized for his outstanding service to our community. I thank him for helping guide me into a positive situation. He is an asset to the Sheriff's Department. Thank you!!
