

While never pleasant to be pulled over for speeding (and I hadn't been pulled over in decades), my experience with Deputy Cooper was actually pretty cool. He lightened the situation immediately by making a joke, calmly asking for my information, quickly running my information, and issuing a citation in a matter of minutes. This feedback is actually genuine, b/c Officer Cooper didn't cut me a break on the ticket (I was, after all, speeding). Nevertheless he's exactly the type of police we need more of in our area!

---

I accidentally did the biggest idiotic bonehead move and got my silverado truck hung up on the frame on the medium of ryan road. I was mortified and in shock. Deputy Hacey would have been justified to scream me into oblivion, or send me to jail for being such a bonehead. It took many sheriffs and two tow trucks to lift up the frame of my truck, and block traffic so I could get back on the road. Deputy Hacey called a tow truck for me and stayed with me and didn't shame me into oblivian. He was very compassionate despite my screw up. I was literally stunned by his kindness. I believe Deputy Hacey is a true saint.

We called DFC Void to let him know that my dad went on a walk shortly after 3 and hadn't come back. He is an avid walker but it had been a bit too long. Deputy Void immediately organized a perimeter, in coordination with Leesburg Police, and they were able to find him within 30 min.

A great big thanks to all officers and their care for my family, not just now but in the past couple of years as well. Your support has been a blessing and has provided us comfort in a tough personal situation.

---

Our home was recently a target of theft. DFC Brady Mullis is the lead investigator assigned to our case and his performance has been exemplary. His professionalism and excellent follow-thru have been sensational, and he is a great representative of your organization. Thank you!

We called the LCSO because we found a small toddler boy and his dog wandering in our yard. We had no idea how to find where he lived as he wasn't very verbal. The deputies came quickly and used their great problem-solving skills to deduce which local homes the little boy may have come from and began reaching out. They eventually determined the correct house (which was very far away and thru some deep woods) and connected with the parents who were obviously very upset. They brought everyone together with a minimum of drama, and really comported themselves with a high degree of care and professionalism. The toddler was at first intimidated by the uniforms and number of deputies, but they were so kind and gentle and really calibrated perfectly to the situation. By the end, he was skipping around the house and completely unafraid of a situation that could have been really difficult. We commend these officers for their skills, kindness and deft touch dealing with a hard situation!!
