# Compliments CORNER

I want to express my extreme thanks to the officers that came on the alarm call at our home. They were courteous, and made us feel very safe. We are lucky to have the Loudoun county officers to protect our community.

called on Saturday and received a response almost immediately from Deputy Moore. I had a few questions and concerns regarding my area and property, and Deputy Moore was very patient and thorough. He never made me feel foolish for asking my questions and gave me appropriate guidance / follow up on how to address my concerns. So thankful I could call the non-emergency line, my issue was resolved thanks to Deputy Moore's help to locate the correct legal code.

I'd like to thank deputy iversen for looking out for me, I was crossing the road and then next thing you know a car and went pass me without stopping almost hitting me, and deputy iversen made a traffic stop to let that driver know on why deputy iversen stopped that driver.

We had just arrived from Germany on the 11th of August. As a german goverment employee, I and my family have had no experience with US Law Enforcement. Officer Martinez came out to the scene of the accident and showed us, how friendly and helpful US Law enforcement can be. He showed patience with us, eventhough we asked many questions. His professional and friendly way of taking care of this rather bad situation deserves a true compliment. We want to thank him for his help and wish him all the best for the future.
