Philomont Fire and Rescue Station Update

Public Information Meeting Comments Being Reviewed for Possible Incorporation Into Design of the Currently Planned New Fire Station

Additionally, a Study is Being Conducted Regarding the Feasibility of a Recently Received Community Submission Around the Concept of Reuse of the Existing Fire Station

Sent: January 24, 2023

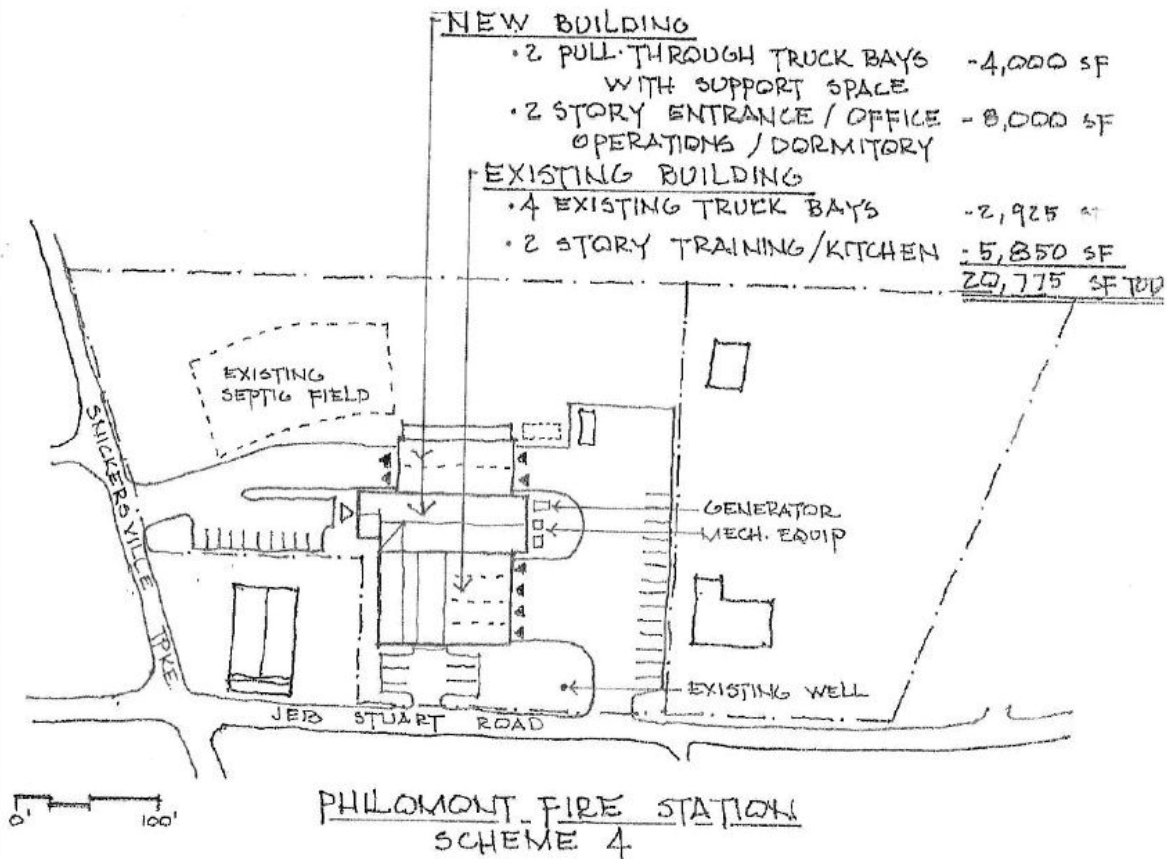

Thank you to all community members who attended the December 8, 2022, public information meeting regarding the new Philomont Fire and Rescue Station project.

The feedback received for site plan and preliminary building elevation preferences will help shape what the new station will look like. For those unable to attend, the presentation and recording are available for review on the project page at loudoun.gov/philomontstation.

The design team is reviewing all comments and suggestions received and will incorporate those into the design of the new station.

In addition to these efforts, the design team has initiated a feasibility study of Mr. Bill Ridge's proposed concept plans (titled Scheme 4 and

4A) at the existing fire station site. The study will be released upon final completion in the coming months.

In addition to sending comments to the [Department of Transportation and Capital Infrastructure \(DTCI\)](#), members of the public can provide input at these upcoming meetings:

- Planning Commission Public Hearing for review of the Special Exception (SPEX) and Commission Permit (CMPT).
- Board of Supervisors Public Hearing and Business Meeting for review of the Special Exception (SPEX) and Commission Permit (CMPT).

These meetings are tentatively scheduled for winter (Jan/Feb/Mar) 2024, timeframe.

About the Project

This project is proposed to construct a new, fire-and-rescue facility on a seven-acre site at 37180 Snickersville Turnpike in Philomont.

For more information, including a link to sign up for email and text updates on the project, visit loudoun.gov/philomontstation.

All our best!
