About Braddock Road & Summerall Drive/Supreme Drive Intersection Improvements Project

This project provides for the installation of a traffic signal and turn lanes at the intersection of Braddock Road (Route 620) and Supreme Drive (Route 1257) and Summerall Drive (Route 1258).

The 0.73-mile segment of Braddock Road near the intersection will be widened from two to four lanes and a shared-use path will be installed along the north side of Braddock Road from the end of the

existing path at the Greenfield Crossing community to the existing path at the Braddock Corner community.

Loudoun County awarded the contract to construct the Braddock Road and Summerall Drive and Supreme Drive Intersection Improvements project to Van Metre Homes at Braddock, L.L.C. Van Metre's proffered offsite improvements also include widening Braddock Road from two lanes to four lanes between Royal Hunter Drive and Gum Spring Road (Route 659).

Construction is currently estimated for completion in summer 2024.

More information, including a link to sign up for updates on the project, can be found on the [project page](#).
