

Recent State Legislation and Current Broadband Survey Update

Improving Broadband coverage throughout western Loudoun is one of my top priorities. It amazes me that nearly 70% of the world's daily internet traffic comes through Loudoun yet so many in the west can't access it. This lack of access makes it difficult for students to complete their homework, hurts rural businesses, and decreases the overall quality of life throughout western Loudoun. Broadband is no longer a cool convenience, it is a critical necessity!

That said, I wanted to let you know about a new state law (HB-912, effective July 1, 2016) and a current state survey (now through early August of 2016) that should help move us in the right direction. Click [here](#) to complete the Broadband Survey.

Many thanks to my friend Delegate Randy Minchew for his work on the [HB-912 legislation!](#)

- ✓ Reduce Traffic Congestion
- ✓ Improve Education
- ✓ Protect Western Loudoun
- ✓ Strengthen Rural Economy
- ✓ Improve Broadband Coverage
- ✓ Support First Responders

Tony
