

## Informational Meeting Regarding Water Storage Tank Construction

Loudoun Water will be holding an informational community meeting for the new elevated water storage tank to be constructed just north of the Grant at Willowsford. This meeting will be beneficial for the surrounding community to understand the timing and routes for construction trucks.

The storage tank is designed to provide water for multiple area schools and the homes in the following communities: Evergreen Rural Village (Martin's Chase), Greene Mill Preserve, the Grove at Willowsford, Aldie Estates, Brambleton, Rockbridge, Evergreen Hamlets, the Grant at Willowsford, the Greens at Willowsford, Lenah Run Village, Huntleigh, and Lenah Mill.

The project site is located off Red Hill Road near Stone School Lane. Construction access will be from the south via Chambourcin Place. Construction access from Red Hill Road is strictly prohibited. Upon completion of construction, permanent site access will be via Red Hill Road. The new storage tank is scheduled to be in service by early 2018.

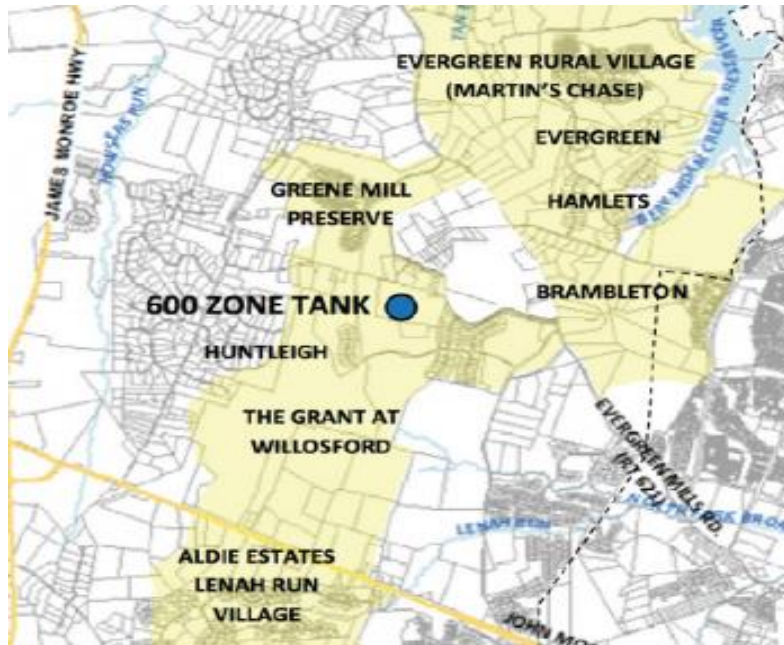

Please join Loudoun Water for an informational session on the construction schedule for the project.

**What:** 600 Zone Elevated Water Storage Tank Construction Schedule

Informational Session

**Where:** Creighton's Corner Elementary School Cafeteria (23171 Minerva Dr, Ashburn, VA)
