

Traffic Signal Update Intersection of Creighton Rd & Northstar Blvd

Many of you have expressed concern about the lack of a traffic signal at the intersection of Northstar Blvd and Creighton Rd in Brambleton. Please know that I share your concerns and have taken action that I hope will accelerate the light by at least a year.

As you may know, the accelerated opening of Madison's Trust Elementary school and planned acceleration of Brambleton Middle School and HS-11, to address overcrowding of area schools, has advanced the need for this light beyond what was originally planned. Last month, I requested the Brambleton developer fund a traffic signal warrant study to initiate the traffic signal approval and installation process. Brambleton has initiated this study and will soon be submitting its findings to VDOT for review and approval. If approved by VDOT, Brambleton will begin the signal installation process which generally takes around 18 months to complete.

In addition, my staff met with LCPS to address your concerns related to vehicular back-ups along Northstar Blvd and Creighton Rd due to the opening of Madison's Trust. LCPS advised that while they will continue to monitor the situation, they believe the queuing is being contained on school property and that the situation will improve as parents become more familiar with arrival and dismissal procedures.

I will continue to work with all involved party's in order to ensure safety and get the light installed as soon as possible.

As always, please contact my office with any questions, comments or concerns.

All my best,

Tony Buffington
