Project Status Update:

In this quarter, an item was presented at the September 20, 2018 Board of Supervisors Business meeting. This item sought direction from the Board regarding the limits of the Route 15 widening along with direction on other intersection improvements between North King Street and Montresor Road. In the next quarter, it is anticipated that a scope of services will be prepared for procurement of a design consultant.

The Local Tax funding allocation was added to the Project Revenue section to reflect the FY 2019 CIP appropriation.

Capital Project Status Report - Interactive Map

Loudoun County builds public facilities and transportation infrastructure improvements to serve county residents and businesses. The county has an online map and database that provides updates on the county's many capital infrastructure projects.

By clicking [here](#) or on the image at right, you can pinpoint a particular project on the map and click on a "More Info" link that will provide a detailed project status report, which is updated quarterly. A quarterly report is also presented to the Board of Supervisors Finance/Government Operations and Economic Development Committee. The latest report is online:
