## LOUDOUN COUNTY GOVERNMENT RISK MANAGEMENT AUTHORIZED PHYSICIANS' PANEL FOR WORKERS' COMPENSATION

July 1, 2020

- Loudoun County (in accordance with the VA code) requires that any person injured during a work or volunteer activity choose from a **Panel of Physicians** for treatment.
- Once you choose a physician from the panel, you cannot change the physician without prior approval from your CorVel Corporation Claims Specialist and Loudoun County Risk Management.
- Follow-up care, if needed, must be provided by a specialty physician listed by name on the Specialty Care Panel. **DO NOT ACCEPT APPOINTMENTS WITH ANOTHER PHYSICIAN, EVEN IF THE PHYSICIAN IS IN THE SAME OFFICE.**
- Failure to choose and treat with one of the physicians from the Panel may result in suspension of benefits: both wages and payment of unauthorized medical expenses.
- The County does not specifically recommend any practice. You are responsible for selecting a provider of your choice from the Panel of Physicians.
- Please notify your claims specialist if the type of specialty care referral is not listed (dentist, cardiologist, optometrist, plastic surgeon, specialty surgeon for burns, or any other specialty not listed).
- Use hospital emergency rooms only for life-threatening injuries or illnesses, or when immediate care is critical.

According to Section 65.2-603 of the Virginia Workers' Compensation Act, an injured employee must select his/her treating physician from a list of at least three (3) physicians chosen by his/her employer or insurance carrier.
