CONSTRUCTION OF THE NEW LOUDOUN COUNTY JUVENILE DETENTION CENTER

1.0 PURPOSE

- 1.1 The Intent of this Invitation for Bid (IFB) is for the County of Loudoun, Virginia (County) to obtain the services of a qualified general contractor to construct the new Loudoun County Juvenile Detention Center.

Located near the intersection of Gourley Transit Drive and Crosstrail Boulevard, the New Loudoun County Juvenile Detention Center (JDC) will replace the existing detention center and will allow for the expansion of the center in future years. The one-story facility will provide twenty (20) detention beds with a future expansion capacity of twenty (20) additional beds. The detention center will include two (2) detention housing units, a fifteen (15) bed youth shelter unit, a public resource center that includes classrooms, gathering/activity areas, and meeting rooms. The new JDC has secure detention areas, a full commercial kitchen, a dining area, intake areas, staff offices, medical services, visitation areas, a divided gymnasium, administration offices, and other staff support spaces.

The County has committed to achieving Leadership in Energy and Environmental Design (LEED®) for New Construction v2009 certification. The Facility is pursuing a minimum of Silver certification upon completion, with aggressive energy use reduction goals.

Site selection for the JDC accounts for reasonable site area to accommodate the proposed building with future expansion, parking lots, drive isles, loading dock, recreation yard, vehicular sallyport with a secured drop off loop, sidewalks, utility routing and easements, Stormwater Management/ Best Management Practices (SWM/BMP) facilities, landscape buffers, road setbacks, existing grade, and resource protection areas that cannot be disturbed (i.e. wetlands, tree stands). Water service will be extended to the site from the main located along Gourley Transit Drive and Crosstrail Boulevard. Sanitary sewer is proposed to exit the west side of the building and will tie into the main trunk line located near the Loudoun County Adult Detention Center to the north. Underground power, gas, and telecommunication lines will be extended to the site by the Contractor as part of this project. The project area limits are approximately seven (7) acres, with an existing grade drop of 24' across the site.

The JDC is a one-story building with exterior brick and concrete masonry unit bearing cavity walls and interior steel columns supporting steel joists with a combination of low slope membrane roofs and curved standing seam metal roofs. The exterior bearing walls typically consist of 8" concrete masonry units, an air space with 2" of closed cell spray foam insulation, and 4" utility face brick with a continuous two-piece flashing. The exterior walls have two (2) colors of brick veneer with cast stone banding and metal wall panels.

The project utilizes a central geothermal plant utilizing high efficient ground coupled modular heat pump chillers. A four-pipe chilled water/ hot water Variable Air Volume (VAV) system uses the geothermal well field to provide heat rejection and absorption for the chiller/ heater plant. The geothermal chiller/ heater package includes source, chilled and hot water connections with an integral pump packaged for primary pumping. The source and secondary chilled and hot water pumps are variable flow, vertical inline pumps using variable frequency drives. The air handling system consists of six (6) units, two (2) indoor, and four (4) outdoor rooftop units, all of which include chilled and hot water coils. The two (2) indoor units are located in the mechanical mezzanines and serve the housing pods. These are 100% outside air units with exhaust energy recovery wheels to pre-condition incoming outside air. An advanced air filtration system, comprised of charcoal/gas phase filters and a bi-polar ionization system is included to pre-treat air that may be contaminated during burn events at the nearby Fire & Rescue Training Complex.

A complete system of artificial interior lighting is provided for all spaces. All interior lighting is Light Emitting Diode (LED). Local switches for control of lighting are provided to serve each individual space, except interview rooms, which are controlled via switches located outside the room to prevent unauthorized use. As an energy-saving measure, spaces such as offices, conference rooms, and classrooms are provided with motion sensors to automatically turn lights off when not occupied.

The plumbing system will be comprised of both traditional and detention-grade low flow fixtures to promote water conservation throughout the entire facility.

The project will have detention doors and frames, pneumatic door locking system, detention hardware, security glazing, and security fencing. The security control system will be a fully-integrated, Programmable Logic Controller (PLC) based control system with touchscreen control panels, running on a dedicated security network. Systems integration includes intercom, video surveillance, access control (Identocard), duress system, and auxiliary systems for remote control of water, lighting, receptacles, etc. in secure areas.

- 1.2 Furthermore, the Contractor will be responsible for the removal of all vegetation as required by the Contract Documents, to include, haul-off and disposal. Excess top-soil and spoils shall be removed from the site. Hauling and disposal of these materials shall be included in this Contract. Should the Contractor require the import of suitable materials to maintain the elevations and grades shown on the Contract Documents, then the Contractor shall be responsible for the costs of the suitable materials, inclusive of hauling, placement, and compaction.
- 1.3 The Contractor shall be responsible for all surveying to ensure the project is installed per the Construction Documents. Any deviations from the

Contract Documents shall be specifically requested via Request for Information (RFI) submitted to the Architect/Engineer of Record. All deviations shall be noted in the Contractor's "Record Set" of Construction Documents. Upon completion of the Project, two (2) hard-copy sets, and one (1) digital copy of "Record Set" Construction Documents shall be provided to the County.

- 1.4 Lastly, the County will require the Contractor awarded this Project to use e-Builder Construction Program Management Software. The County will purchase licenses for the Contractor's use and will provide training for the Contractor to ensure proficiency as recommended by e-Builder. The license and training will be provided to the Contractor at no cost and prior to the issuance of Notice to Proceed. Further training due to a lack of proficiency will be the responsibility of the Contractor.

The e-Builder Construction Program Management Software will be utilized for all Project management documentation and correspondence, including but not limited to: RFI's, submittals, meeting minutes, pay applications, proposed change orders/change orders, close-out documentation, etc. Contact e-Builder for further information at www.e-builder.net or 1-800-580-9322.

19.8 Withdrawal of Construction Contract Bid Due to Error

A bidder for a construction Contract may withdraw its bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake therein, provided the bid was submitted in good faith, and the mistake was a clerical mistake as opposed to a judgment mistake, and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor, or material made directly in the compilation of a bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents, and materials used in the preparation of the bid sought to be withdrawn. The bidder shall give notice in writing of its claim of right to withdraw its bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice.

19.9 Subcontractors

Please refer to Article 5: Subcontractors, of the *County of Loudoun General Conditions of the Construction Contract*.

19.10 Late Bids

LATE bids will be returned to bidder UNOPENED, if IFB number, opening date, and bidder's return address are shown on the container.

19.11 Rights of County

The County reserves the right to reject all or any part of any bid, waive informalities, and award the contract to the lowest responsive and responsible bidder to best serve the interest of the County. Informality shall mean a minor defect or variation of a bid from the exact requirements of the Invitation to Bid which does not affect the price, quality, quantity, or delivery schedule for the goods, services, or construction being procured.

19.12 Prohibition as Subcontractors Under Competitive Sealed Bidding

No bidder who is permitted to withdraw a bid shall, for compensation, supply any material or labor to, or perform any subcontract or other work agreement, for the person or firm to whom the Contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.

19.13 Vendor Preference in Tie Bids

The Division of Procurement and all other departments of the County making purchases of goods, services, and construction shall give preference to goods, services, and construction sold by County and State vendors, in that order, in all cases of tie bids, quality and service being equal.

19.14 Anti-Trust Violations

Tie bids may cause rejection of bids by the Division of Procurement and/or prompt an investigation for Anti-Trust violations.

19.15 Basis for Award

Contract award will be made to the lowest responsive and responsible bidder based upon the lump sum.

Whenever the lowest responsive and responsible bidder is a resident of a state other than Virginia and such state under its laws allows a resident Contractor of that state a percentage preference, a like preference shall be allowed to the lowest responsive and responsible bidder who is a resident of Virginia and is the next lowest bidder. If the lowest bidder is a resident Contractor of a state with an absolute preference, the bid preference shall not be considered.

19.16 Negotiation with the Lowest Responsible Bidder

Unless all bids are cancelled or rejected, the County reserves the right granted by § 2.2-4318 of the *Code of Virginia* to negotiate with the lowest responsive, responsible bidder to obtain a Contract price within the funds available whenever such low bid exceeds the available funds. Negotiations with the low bidder may include both modifications of the bid price and the specifications/scope of work to be performed.

19.17 Notice of Award

A Notice of Award will be posted on the County's web site (www.loudoun.gov/procurement).

19.18 Protest

Bidders may refer to §§ 2.2-4357 through 2.2-4364 of the Code of Virginia to determine their remedies concerning this competitive process. Protests shall be submitted to the Chief Financial Officer, Department Finance and Budget.

19.19 Construction Contract Bid Security

Bid security is required for this project. Bid security shall be a bond provided by a surety company selected by the bidder and authorized to do business in Virginia, or the equivalent in cash, or otherwise supplied in a form satisfactory to the County. Bid security shall be in an amount equal to at least five percent (5%) of the amount of the bid. Non-compliance with this provision requires that the bid be rejected unless it is determined that the bid fails to comply in a non-substantial manner the security requirements.

The apparent low bidder's Contract Bid Security shall be subject to forfeiture if the apparent low bidder withdraws his bid prior to award, or fails to sign and return the County – Contractor Agreement. The Contract Bid Security shall be forfeited according to the forfeiture provisions in Code of Virginia (§ 2.2-4336) and the proposal guaranty.

19.20 Construction Contract Bond Forms and Copies; Alternative Forms

In lieu of a bid, payment or performance bond, a bidder may furnish a certified check or cash escrow in the face amount required for the bond. If approved by the County Attorney, a bidder may furnish a personal bond, property bond, or bank or savings and loan association's letter of credit on certain designated

funds in the face amount required for the bid, payment or performance bond. Approval shall be granted only upon a determination that the alternative form of security proffered affords the same protection to the County equivalent to the corporate surety bond.

19.21 Debarment

By submitting a bid, the bidder is certifying that bidder is not currently debarred by a local or state government or the Federal Government. A copy of the County's debarment procedure in accordance with § 2.2-4321 of the Code of Virginia is available upon request.
