Only application pages need to be returned. The instructions page is only to assist the applicant and provide general guidance.

Instructions

This application is to be used for storage or dispensing of Liquefied Petroleum Gas (LPG). This includes bulk storage, cylinder exchange or construction site storage where the aggregate capacity exceeds 499 WC.

If you are renewing an existing permit, enter the number in the space provided.

Provide the business name and ‘Doing Business As’ name if it is different. Often a business uses a corporate name that is different from the name on the location. If the business location is different from the billing office, enter it as the inspection location in the space provided.

Make sure to provide the name and contact information for the person filling out the application. The application with a check or money order payable to ‘County of Loudoun’ should be mailed to the address shown on the application. We are not equipped to accept cash or credit/debit cards at this time.

Once the permit is processed an inspection will be scheduled. Common items we look for are:

- **‘No Smoking’ signs are properly posted.**
- **Vendor contact information is posted.**
- **Correct storage enclosures or cabinets where required.**
- **Tanks are properly secured to prevent falling or tampering. This includes empty tanks that have ever been used. New, unused tanks are not included.**
- **Portable extinguishers are accessible and properly maintained.**
- **Proper controls, signage and extinguishers for fuel dispensers.**
- **Proper clearance to exits, building openings, lot lines and ignition sources.**
- **Vehicle impact protection where required.**
- **Building address is clearly visible from the street.**

This list covers the most common items related to these uses. Not all of these items apply to every location, and some have additional specific requirements. If you have questions related to a specific use or operation, please contact the Fire Marshal’s Office for additional assistance.
